

# NORTH CAROLINA LICENSING BOARD FOR GENERAL CONTRACTORS

## NCLBGC COVID-19 Update

**To: All interested parties**

**From: Frank Wiesner, Executive Director, Secretary - Treasurer**

Like you, the North Carolina Licensing Board for General Contractors is monitoring the outbreak of COVID-19 and its impact. The Board is committed to maintaining normal operations, and as of March 20, 2020, the Board is operating on its regular schedule. However, to protect the health of our staff, the Board office is not open to the public. Please monitor the [Board website](#) and [social media profiles](#) for updates.

Board staff continues to process applications and other related licensing applications. However, in an effort to reduce the spread of COVID-19, PSI has closed their owned and operated testing centers in the United States, including all testing centers in North Carolina, effective March 19, 2020. PSI is monitoring the situation and will provide regular updates on their website at <https://www.psonline.com>. The Board also will pass along updates as they are available.

Continuing Education Mandatory CE Training for approved Instructors scheduled for March 24, April 7 and April 8 have been postponed and will be rescheduled. All approved Providers and Instructors will be notified when new training dates have been set.
